

"I have spent most of my life riding horses, but it wasn't until I met Hazel that everything seemed to click into place.

Her understanding of the horse and how it behaves is beyond anyone I have ever met. She has given me an understanding of psychological aspect of how the horse and rider work together, an aspect I find fascinating and thoroughly enjoy in all my lessons and continue to use.

I have always found my lessons highly rewarding and believe I am a much better rider thanks to Hazel. I would highly recommend her and Nine Acres to anyone"
